## EDUCATION

### LOVELY PROFESSIONAL UNIVERSITY

B.tech Computer Science

Cumulative GPA: 6.0/10

Grad: July 2021 | Jalandhar, India

## COURSEWORK

### UNDERGRADUATE

Design And Analysis of Algorithms  
Data Structures  
Database Management System  
Operating System  
Computer Networks  
Object Oriented Programming

## LINKS

## SOFT SKILLS

Problem solving | Flexibility |  
Self-Motivation | Self-learner |  
Team Collaboration

## SKILLS

### PROGRAMMING

Languages:

- Java (Proficient)
- C/C++
- JavaScript

Frontend:

- HTML, CSS, JavaScript
- ReactJs
- TypeScript

Backend:

- Java
- Node.js
- Express.js

Other:

- Git
- Postman
- Linux CLI

## CERTIFICATIONS

- Programming, Data Structures and Algorithms  
FreeCodeCamp
- Front End Libraries  
CodingBlocks
- [Algo++](#)

## EXPERIENCE

### CLAYFIN | Software Developer

May 2022 – Present | Chennai

#### Area of Responsibilities

- Developed and maintained a clean and efficient codebase, ensuring adherence to coding standards and best practices.
- Collaborated closely with cross-functional teams, including designers and product managers, to deliver high-quality software solutions.
- Conducted rigorous testing and debugging to identify and resolve software issues, resulting in a 20% decrease in application bugs.
- Utilized version control (e.g., Gitlab) to manage and track code changes, facilitating efficient collaboration and code management.

## PROJECT

### Nayifat Finance Company | Saudi Arabia-based

- Contributed as a React Native Developer on the Nayifat project.
- Developed and implemented the loan module, providing comprehensive loan details, loan statements, and loan refund functionalities.
- Created intuitive user interfaces and ensured seamless integration with the rest of the application.
- Collaborated with cross-functional teams to deliver high-quality features and maintain optimal user experience.
- Conducted code reviews, debugging, and performance optimization to enhance the application's overall quality.

**TechStack :** React Native | Redux | i18n | TypeScript | Redmine | Gitlab

### RMT- WEB - BURGAN BANK

- Engaged as a React Web Developer on the RMT-WEB project.
- Developed the Rewarded Module, implementing reward-related functionalities and enhancing user engagement.
- Integrated APIs to enable smooth communication with external systems.
- Collaborated with the development team to ensure efficient and scalable solutions.
- Utilized the Redmine tool for testing, organizing and tracking testing activities, and collaborating with the testing team

**TechStack :** React | Redux | HTML | CSS | JAVASCRIPT | Postman | Redmine

## MASAI SCHOOL | INTERNSHIP

- Completed an intensive Full Stack Developer course at Massai School, gaining comprehensive knowledge of web development technologies and practices.

## PROJECT

### Purple Clone - E-commerce Site for Beauty Products

- Developed a fully functional e-commerce website, inspired by Purple, catering to the beauty products industry.
- Implemented core features such as user authentication, product listing, shopping cart functionality, and secure payment gateways.

### Bewakoof - Online Store for Men and Women's clothes

- Developed frontend interfaces using HTML, CSS, and JavaScript, along with React.js for building interactive user interfaces.
- Created RESTful APIs using Node.js and Express.js for backend functionalities like product management, user registration, and order processing.
