EDUCATION

LOVELY PROFESSIONAL UNIVERSITY

B.Tech in Computer Science and Engineering

Cumulative GPA: 6.0/10

Grad: July 2021 | Jalandhar, India

COURSEWORK

UNDERGRADUATE

- Design And Analysis of Algorithms
- Data Structures
- Database Management System
- Operating System
- Computer Networks
- Object Oriented Programming

SOFT SKILLS

- Problem-Solving
- Attention to Detail
- Decision-Making
- Continuous Learning
- Team Collaboration
- Adaptability
- Critical Thinking

SKILLS

Programming Languages:

- Java (Proficient)
- JavaScript
- TypeScript

Frontend:

- React Native
- React.js
- Next.js
- HTML, CSS, JavaScript

Backend:

- Node.js
- Express.js

Tools & Other:

- GitLab
- Postman
- Jira Board
- REST APIs

CERTIFICATIONS

- Programming, Data Structures and Algorithms

FreeCodeCamp

- Front End Libraries

CodingBlocks

- [Algo++](#)
- [Masai School](#)

EXPERIENCE

CLAYFIN | Software Developer

May 2022 – Present | Hyderabad

PROJECT

Burgan Bank – Mobile Banking Application | Saudi Arabia-based

- Contributed to the revamp of Burgan Bank's mobile banking application as part of a 5-member team, modernizing the app's architecture and UI/UX. Enhanced performance, security, and user experience, contributing to 100K+ downloads across iOS and Android
- Converted high-fidelity Figma designs into responsive UI components, ensuring a seamless and visually appealing user experience
- Integrated secure server-side APIs with robust validation, ensuring smooth and error-free transactions.
- Maintained strict quality standards, delivering a stable, crash-free production-ready app that significantly enhanced customer satisfaction.
- Collaborated closely with QA and cross-functional teams, quickly resolving critical bugs and maintaining app reliability post-release.

Tech Stack: React Native | Redux | TypeScript | React Query | i18n | Figma | GitLab | Zoho Project | Jira board | REST APIs

Nayifat Finance – Mobile Banking Application

- Developed the Nayifat Finance app from scratch, implementing core banking features for a Saudi Arabia-based financial institution.
- Designed and built loan management modules, allowing users to view loan details, statements, and refunds.
- Implemented internationalization (i18n) to support multi-language functionality.
- Reduced API response time by 30%, ensuring smooth and reliable communication between the app and backend services.
- Worked with cross-functional teams, ensuring a high-quality product by fixing bugs, optimizing performance, and improving user experience.

Tech Stack: React Native | Redux | TypeScript | i18n | REST APIs | GitLab | Zoho Project | Adobe XD

MASAI SCHOOL | INTERNSHIP

- Completed an intensive Full Stack Developer course at Masai School, gaining comprehensive knowledge of web development technologies and practices.

PERSONAL PROJECT

Android Application | In Progress

- **Fitness App (Android)** – A React Native-based fitness tracking app with workout plans and progress tracking.
- **Device Information App (Android)** – A system utility app that displays detailed device specifications and performance insights.

Next.js Project | In Progress

- **Tech Review Website (Next.js)** – A platform for reviewing and comparing tech gadgets, built using Next.js for SEO optimization and fast performance.
